**AR-LTBLUE-MTL** Agua Marinha Finish, with Metal Blades

# Ar Ruthiane

## Timeless Elegance and Engineering Precision

Its graceful hourglass support arms embrace bullet-shaped motor housings, effortlessly rotating 360° around a sculptural teardrop center. Designed for unparalleled airflow control, its fan heads can be infinitely positioned in sweeping 180-degree arcs, allowing for optimal circulation tailored to any space. The steeper the angle, the faster the rotation—creating a mesmerizing dance of movement while delivering exceptional comfort and efficiency. Unlike traditional paddle fans, the Ar Ruthiane's rotation enhances both heating and cooling systems, ensuring an energy-efficient environment. Crafted from cast aluminum, heavy spun, and stamped steel, this fan is built to last, backed by a limited lifetime warranty.
